

FOR IMMEDIATE RELEASE

New Business Rating Puts Hughes Tops in Customer Responsiveness

Hughes Earns Better Business Bureau's Highest A+ Rating

Germantown, Md., July 20, 2010—[Hughes Network Systems, LLC](#) (HUGHES), the world's leading provider of broadband satellite networks and services, is pleased to announce that it has earned an A+ rating from the Better Business Bureau (BBB) for its [HughesNet](#)[®] high-speed satellite Internet service, available to anyone in the contiguous U.S. with a clear view of the southern sky.

The BBB ranking is based on a company's business practices and responsiveness to customer concerns, factoring in elements such as company longevity, size, and commitment to BBB standards. It shows consumers how forthright and effective the company has been in resolving customer issues. By using satellite technology instead of landlines, HughesNet gives customers—even in the most remote locations—a super-fast, always-on Internet connection.

According to BBB research, Hughes met all BBB accreditation standards, addressing any customer issue in good faith and to the best of its ability.

“The Better Business Bureau does recognize and appreciate the commitment a company and its staff must make in order to maintain the timely response and resolution of complaints. Hughes and its staff have made that on-going commitment to its customers through the BBB complaint process, and those efforts are reflected in the BBB rating earned and maintained by (the) company,” said Edward Johnson, president of BBB of Metro Washington, D.C.

The BBB A+ rating follows deep investments Hughes has made in bolstering its customer care capabilities. These efforts include new customer welcome support calls, new user tutorial videos, auto-repair troubleshooting services, and establishing customer-driven advocacy and advisory support services, among many other initiatives for resolving customer issues quickly and thoroughly.

“Trust in the marketplace is hard earned,” said Mike Cook, senior vice president, North America, at Hughes. “Hughes believes it's not enough to offer a great product; you need to solve customers' problems fast and thoroughly whenever they arise. The BBB A+ rating validates that credo.”
